**Attn: Phil**

**We just wish to thank you for your deep appreciation for our needs and your commitment to service.**

**I launched my old friend into the pool and he passed the test! He moved right; he moved left, however, just like me.....he's slower than he used to be, probably due to age.**

**But, thank you for your special attention to us and the expert repairs. We don't know too many pool owners, but referrals to your great "Pool Hospital" are truly in order.**

**Sincerely,**

**George**
